

Congratulations

[image.png](#) Congratulations on your purchase of this fine telescope. This great telescope has five lenses, double ED and a flat field of view that will create stunning images.

The highlights at a glance:

- 72mm quintuplet ED Apo with five lenses, two of which are made of ED glass for an even more brilliant image
- A two-lens integrated corrector ensures a flat and illuminated field, also suitable for full-frame cameras with an image circle of up to 44mm
- 3" focuser with a 1:10 reduction ratio: Easily focus larger and heavier cameras with high precision
- 140mm back focus
- Camera rotates 360° so you can find the right orientation
